## Newsletter | October 2023

### **Welcome to our Newsletter!**

Welcome to the **October 2023** Edition of the Brownson Technical School Newsletter! This “spooky season’s” edition contains our feature in the OC Register, IHACI 2023 info, and Yaskawa Training dates. Enjoy this month’s edition!

### **Brownson Technical School Rated #2 in “Best Career College/Trade School” in the OC Register** **by Nick Brown**

**SOURCE: ORANGE COUNTY REGISTER ([www.ocregister.com](http://www.ocregister.com))**

On September 21, Brownson Technical School was rated number two in the Orange County Register by the readers of the OC Register for The Best Career College and Trade School article! The Register stated that “Brownson Technical School grads have a high success rate for employment because they typically get the most cutting-edge training in HVAC/R trends.” Director Bill Brown said in response to this, “We feel honored and humbled, given that this was this a poll from the readers of the Orange County Register.” We couldn’t be more pleased that the readers voted us number two for Best Career Colleges and Trade Schools in all of Orange County! Thanks to the readers of the OC Register for your vote of confidence.

## OC Register Article featuring us: [Best of Orange County 2023: Education: Best career college/trade school](#)

### 2. Brownson Technical School

1110 Technology Circle, Suite D, Anaheim; 714-774-9443; [brownson.edu](http://brownson.edu)

Brownson Technical School grads have a high success rate for employment because they typically get the most cutting edge training in HVAC/R trends.

For more than 30 years, the school's training programs prepped students in heating, ventilation, air conditioning and refrigeration repair, maintenance and design. And because Brownson has built relationships in the industry, it's become a go-to school for employers. Many of the former students eventually become business owners themselves, and frequently hire Brownson graduates.

According to Brownson's website, 87 percent of its graduates found work in the HVAC industry within one year. Grads enter the work force with 1,040 hours of hands-on training on a wide-range of real equipment in one of the biggest HVAC labs in Southern California. Training courses for beginners and advanced technicians are available in 10-month and 22-month plans.
