## 👋 INTRODUCTION 👋

Welcome to this month's edition of the *Brownson Bulletin*! We hope you enjoy reading the *Brownson Bulletin* this month!

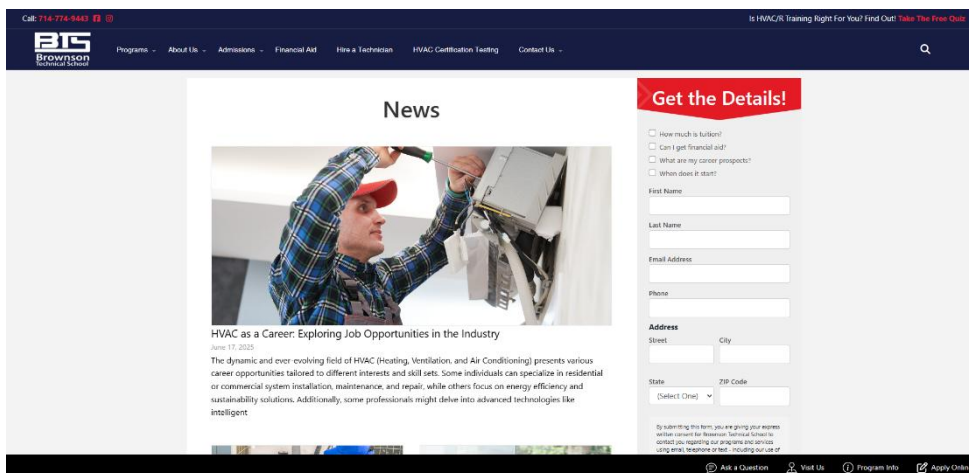

## 📰 BULLETIN BOARD 📰

### News Section on our Website!

#### BY NICK BROWN

Although this page is not new to brownson.edu, we want to make it more publicly known-- here is the "News" section of our website. The news here is a bit more up-to-date, as it is updated more frequently than the *Brownson Bulletin*. The News portion is amazing for anyone who is looking for a deeper dive into their training. ## **Program Description\***

### **HEATING, VENTILATION, AIR CONDITIONING, AND REFRIGERATION TECHNOLOGY TRAINING IN 1040 HOURS!**

Students who complete our program can diagnose, service, install, and repair HVAC-R equipment and understand the reason for a building to gain or lose heat, as well as help mitigate the impact on energy usage. Our program also includes training on systems using direct digital controls (or “DDC”). The overall scope of this program is to prepare graduates to learn how to get the most out of the equipment’s performance, which is different than how this type of training is typically done. Our HVAC-R program sees the building as a “System” and the equipment as a “Sub-system.” Moreover, as California moves towards "Net-zero" energy usage for new residential and commercial buildings, we must also bring existing buildings to the new energy standards. These newer State standards affect many types of buildings, and our program will prepare you for these types of changes.

## **Why Brownson Technical School?**

When considering an HVAC-R training facility, one must do the proper research. Several schools offer HVAC-R training, including community colleges or schools that teach multiple trades.

Brownson is different! Here's why:

- Lower-cost tuition per hour than many schools in the area.
- We only teach HVAC-R!
- Our graduates can become NATE CORE Certified, HVAC Excellence Certified, and receive additional certifications.
- Our training can take as little as ten months\*!
- Part of our training can be done online\*\*!
- We have a lab area of 12,000+ square feet filled with some of the most up-to-date equipment we can obtain!

\*Applies to our 10-Month Day Class Program

\*\*Applies to our 10-Month Blended Program
