

THE BROWNSON BULLETIN

September 2024

INTRODUCTION

Welcome to this month's edition of the *Brownson Bulletin*! This month, we announced *Brownson Broadcast* changes, IHACI dates, and interesting *Labor Day* facts in *Bulletin Trivia*. Enjoy!

BULLETIN BOARD

Brownson Broadcast is Ending

BY NICK BROWN

Beginning September 2024, *Brownson Broadcast* will end production of the YouTube newscast series as we know it. *Brownson Broadcast* as a newscast series may be ending, but *Brownson Broadcast* is not ending... entirely. *Brownson Broadcast* will continue to have new episodes under the name "*Student Section on Video*"; these new episodes will only be the compilations featuring our students. Because of this change, these compilations will be longer than they were on *Brownson Broadcast*! Although *Brownson Broadcast* is no longer available, *Brownson Bulletin* is. *Brownson Bulletin* will continue spreading news to the student body of Brownson Technical School; the way it did before the production of *Brownson Broadcast*. We want to thank you all for watching *Brownson Broadcast* and we hope that you will enjoy the new *Student Section on Video* series!

BULLETIN TRIVIA

BROWNSON BULLETIN TRIVIA **September 2024**

In 1887, which US State was the first to declare "Labor Day" as a holiday?

- a. New Hampshire
- b. Oregon
- c. Montana
- d. Idaho

Which restaurant opened its first ever location on "Labor Day"?

- a. Waffle House
- b. Denny's
- c. IHOP
- d. Cracker Barrel

ANSWERS

1) B

2) A

Description:

Labor Day has more to it than you may think! The first state to make *Labor Day* an official holiday in 1887 was Oregon. Decades later in 1955, *Waffle House* found its first host in Avondale Estates, GA. You can celebrate *Labor Day* by going to a *Waffle House* (if you're near one)!

THIS IS BROWNSON TECHNICAL SCHOOL!

Program Description*

HEATING, VENTILATION, AIR CONDITIONING, AND REFRIGERATION TECHNOLOGY TRAINING IN 1040 HOURS!

Students who complete our program will be able to diagnose, service, install, and repair HVAC-R equipment and understand the reason for building to gain or lose heat, as well as helping mitigate the impact on energy usage. Our training also includes training on systems using direct digital controls (or “DDC”). The overall scope of this training is to prepare graduates to learn how to get the most of the equipment’s performance, which is

different than how this type of training is typically done. Our training sees the building as a system and the equipment as a sub-system. Additionally, as California moves towards “net-zero” energy usage for new residential and commercial buildings, we must also bring existing buildings up to the new energy standards.

Why Brownson Technical School?

When considering an HVAC-R training facility, one must do the proper research. Several schools offer HVAC-R training, including community colleges or schools that teach multiple trades.

Brownson is different! Here’s why:

- Lower-cost tuition than many schools in the area.
- We only teach HVAC-R!
- All graduates can become NATE CORE Certified, HVAC Excellence Certified and receive additional certifications.
- Our training can take as little as ten months*!
- Part of our training can be done online**!
- We have 12,000+ square feet of lab area filled with some of the most up-to-date equipment we can get our hands on!

**Applies to our 10-Month Day Class Program*

***Applies to our 10-Month Blended Program*
